Confirmation of Service Consumption on Dimension Data Public Cloud

This letter serves to confirm that EDUPAC are consuming services from the Dimension Data Managed Cloud Platform(MCP).

This platform is ISO 27001, ISO 27018, CSA Star and SOC 1 SSAE Type 2 certified of which we can provide proof on request.

Further to this I have included the technical security overview white paper for how our cloud platform and individual clients on the platform are protected.

Please feel free to contact me should you require any further clarification.

Yours sincerely,

Dimension Data

Ryan Daniels
